iBend - Iphone Stand

Product Name: iBend - Iphone Stand

Manufacturer: -

Model Number: TGS1002

The iBend is the thinnest mobile media player stand designed specifically for the iPhone and iPod touch. Use your iBend™ on a plane, bus, train or practically anywhere you can find a flat surface.

Made from 0.25 mm thick rigid vinyl, the iBend's clever shape and patent pending design offers an amazing amount of support and durability for watching videos & movies whilst traveling by plane, train or automobile.

Use your iBend™ on a plane, bus, or train - whilst lifting weights, eating breakfast, waiting at the sushi bar, getting your teeth cleaned, at a business meeting, sitting in traffic, serving on a jury or practicing yoga.

The slenderness of the iBend™ allows you to easily store it in your wallet, pocket or purse so you'll always have one (or two) handy.

Super easy to use!

Just bend the iBend™, slide in your iPhone®, iPod® touch or Google Nexus One, and you are ready to go.

Watch the video here

Considering how common it is to see people on a plane using their iPhones to watch movies, we thought it made sense to package the product in quantities of two to encourage sharing with both friends and strangers.
