## Skylark Mini Flying Helicopter

Product Name: Skylark Mini Flying Helicopter

Manufacturer: -

Model Number: TGS1027

He s not only the smallest and lightest, but also extremely stable, it s the mini flying helicopter that will bring you endless hours of fun and excitement you ll ever have! The new 3-channel technology (most small helicopters this size only offers 2-channels), will turn 360 degrees, will move forward and backward and will fly higher and faster when you open the throttle!

Three channels is better than two channels! With this extra function, you can fly this baby left, right, forward, and reverse. Control is easy with the new design remote control with built in charging system right out of the remote. Simply install 6 x AA batteries (not included) in the 3 channel remote control and turn on the helicopter, soon you ll be having the most fun ever!

### Features

- Unique 3-channel wide infrared remote control (typical mini helicopters only feature 2-channel controls)
