Balanzza Luggage Scale

Product Name: Balanzza Luggage Scale

Manufacturer: -

Model Number: TGS1050

Balanzza is the first Digital Luggage Scale designed for travelers. This compact tool allows you to weigh your luggage at home or at the hotel before heading to the airports.

Balanzza Luggage Scale

The Balanzza Ergo is a step forward in digital scales design, with no handles, the scale itself is the grip. Is the first scale that is horizontally positioned instead of vertically in regards to the floor, offering the most natural way to lift heavy objects up to 44Kg. The screen is located on the upper side of the scale so the user can see the weight while lifting it with one hand; it can also wait for the beep to set it down if lifted with 2 hands.

Its ergonomic shape lets you lift the objects easy and with less stress to your hands, its patent pending process of lift, wait for the beep, and set it down, makes it the most easy to use scale in the world. Use it at home to weigh your children backpack, or the holidays gifts you are planning to ship, or that occasional parcel that need to be sent. Make sure to bring it with you on your trips so you are safe from the overweight luggage fees, even use it for the office for those small and medium size packages that need to be weigh before shipping.

In addition to these differences, the Balanzza Ergo has the same durability, strength and features as its original predecessor the Balanzza Digital Luggage Scale.

Product Details

- * Measure weight of Luggage up to 44Kg
- * Dimensions: 15.80 cm (L) x 6.30 cm (W) x 3.10 cm (H)
- * Weight: 220 grams
- * Operates with 2 AA Batteries (included)

Price: R329.00
