

Nite Dawg - LED Dog Collar

Product Name: Nite Dawg - LED Dog Collar

Manufacturer: -

Model Number: PGIFTSO756

Put the Nite Dawg LED light-up dog collar on Fido and you will never wonder where, oh where, your little (or medium, or big) dog has gone. And neither will anyone else...

The Nite Ize Nite Dawg

Light-Up Collar is the answer to every night-loving dog owner's problem: losing sight of their best buddy after sundown. Made of high quality nylon, this lightweight, durable collar houses a flexible, light-transmitting polymer core that illuminates when the collar is turned on. A reflective stripe adds additional safety by providing passive reflectivity. Powered by a super-efficient (100,000 hour) LED bulb, it's literally a brilliant way to keep your dog safely visible—to you, to other people, to cars—during any late-day or early morning outing.

Available in two colors and three

sizes, the Nite Dawg collar has two mode settings, flash and steady glow. Fully weather-resistant, visible up to 1000 feet in the dark, and powered by a long-life, easily replaceable battery (included), it's simply the best way to keep your dog's presence clear and obvious, from dusk till dawn.

(Extra-effective when paired with the Nite Dawg Leash.)
