## Nite Dawg - LED Pet Leash

Product Name: Nite Dawg - LED Pet Leash

Manufacturer: -

Model Number: PGIFTSO757

Illuminated by a super-efficient LED bulb, Our Nite Dawg Leash turns your walk in the dark into a (safe and visible) walk in the park.

When you're walking or running your dog before sunup or after sundown, you sometimes worry that other people and cars can't see you coming. Unless, of course, you're using the Nite Ize Nite

Dawg Leash. With its 18-inch flexible, LED light-transmitting polymer core, with a reflective stripe for passive reflectivity, this leash makes both you and your furry friend's presence obvious to everything on-coming, from dusk till dawn.

Made of high-quality, durable nylon and measuring 5 feet in length, the Nite Dawg leash features a weather-resistant, enclosed switch that allows you to choose illumination modes (glow or flash). Its efficient LED bulb has a life of about 100,000 hours, and a fully replaceable 100-hour battery is included. Secured to your dog's collar with its strong, rotating spring clip, this leash provides visibility through endless late-day, late-night, and early morning outings. (Doubly effective when paired with the Nite Dawg Collar.)
