Mp3 Fm Modulator - Usb Slot

Product Name: Mp3 Fm Modulator - Usb Slot

Manufacturer: -

Model Number: GIZMO28

This handy MP3 FM Modulator turns any USB memory drive (not included) into an MP3 player. It plays all of your audio devices through your car stereo system for convenient listening anywhere. Contains MP3 decoding software and a USB port.

Description (USB) The MP3 FM Modulator turns any USB memory drive into an MP3 player. Plays all of your audio devices through your car stereo system. Contains MP3 decoding software and a USB 1.1 port (USB 2.0 flash drives are downward compatible to USB 1.1). Just plug the MP3 FM Modulator into any 12v. adaptor, select one of the seven FM Modulator Presets, insert flash memory, and press Play. Buttons let you advance through songs, control volume, start and stop. Included audio cable attaches almost any CD player, DVD player, MP3 player, laptop computer, etc. to your FM modulator to listen to your favourite tunes through your FM radio.

Description (MP3, CD or DVD Players) ? Plug the FM Modulator into the vehicle's 12 Volt adaptor. Using the audio cable (supplied), plug your MP3, CD, DVD player or other audio device into the FM Modulator's stereo jack. Select one of the seven FM Modulator preset stations that a local radio station is not broadcasting on (87.7, 87.9, 88.10, 88.3, 88.5, 88.7, 88.9 MHz). Tune your car stereo to the same frequency as the FM Modulator. Press the play button on the FM Modulator. Music / Audio transmits from your player to the vehicle's stereo system.
