## VOIP USB Handheld Phone

Product Name: VOIP USB Handheld Phone

Manufacturer: -

Model Number: GIZMO93

You might not know it but you can give Telkom a two-fingered salute and make calls to your friends and family for free using your broadband or even dial-up connection. All you need is our USB Skype phone and you can start making local, national and international calls for the very reasonable price of nothing whatsoever. Voice over Internet Protocol, or VoIP, allows you to use your broadband connection as a normal phone line but instead of paying minute by minute call charges, you pay no extra. In fact, if the person you are calling has a "messenger" program on their computer (eg MSN messenger can be downloaded free - just click here) you do not need skype at all and calls are totally 100% free. You can even use MSN messenger if one or both of you are using a dial-up connection. Imagine the conversations you could have with great aunt Ethel in Sydney via your Internet Phone. The possibilities are as endless as the call might be. So, just one word of warning: don't give you Skype number to anyone who might use it against you. Main Features: Easy to install USB Plug and Play technology Conference calling feature PC sound card not required Acoustically isolated speaker and microphone to eliminate echo LCD Display Caller Display Last Number Redial (Up to 199) View last called (Up to 199) PC to PC and PC to phone operation USB 1.1 and 2.0 compatible no need for soundcard No external Power required Complies with h.323, MGCP and SIP protocol Echo cancellation, Noise reduction Full duplex communication Full control and functionality over Skype software Small and slender design - Reducing desk clutter Independent use of phone and sound card allows for VoIP call while listening to music \*To find out how cheap and easy it is to use, please visit Skype. Summary: If both you and the person you are calling have a USB phone and a free to download "Messenger" program (Eg MSN Messenger) for their computer, or you are both Skype members, your calls will be totally free (that's 0 cents/minute!) anywhere in the world. If the person you are calling does not have a USB phone you can call them on their normal phone for very low rates but you need to join Skype. Colour Available: Silver
