Remote Rain Gauge

Product Name: Remote Rain Gauge

Manufacturer: -

Model Number: GIZMO151

Monitor daily and total rainfall (including 9-day rainfall history) and indoor temperature from the comfort of your home or office. The Oregon Scientific RGR126 Wireless Rain Gauge with Indoor Thermometer features a self-emptying rain collector with wireless transmission of up to 100 meters! This high-tech wireless rain gauge displays daily rainfall amounts, nine-day historical record and total rainfall. The unit has a high daily rainfall alarm and not only measures but also eliminates collected precipitation via the self-emptying rain collector. The rain collector has a 3.5-inch diameter and stands almost 15 centimetres tall. Rainfall amounts are shown in inches or millimetres. The sleek black-and-silver LCD display unit lists indoor temperature in one-half inch tall letters that are easy to read. The four-line display console also shows current rainfall and total rainfall amounts.

Benefits:

- Wireless design makes measuring rainfall amounts simple.
- Includes display console, one remote sensor and self-emptying collector.
- Instruction manual included.

Features:

- Rain gauge has an effective wireless transmission range of 100 meters (unobstructed).
- Digital base unit displays daily and cumulative rainfall amounts and indoor temperature.
- Lists nine-day rainfall history.
- Rainfall amounts measured in inches or millimeters.
- Rain collector has 3.5-inch diameter.
- High daily rainfall alarm.
- Display unit powered by 2 AA batteries (included).
- Rain collector powered by 2 AA batteries (included).
