

## TrekStor i.Gear Lumio

Product Name: TrekStor i.Gear Lumio

Manufacturer: -

Model Number: TGS2035

The i.Gear Lumio makes presentation giving with your iPhone 4 a true walk in the park. Not only is it powered by 3 LEDs which has a lifespan of up to 20,000 hours, but it projects excellent, clear and vibrant colours across any flat surface, like a wall, table or ceiling. It's a brilliant and entertaining way to show of your photos too!

Trekstor's i.Gear Lumio transforms newer iPhones into a mini-projector. The 127-millimetre-long device works with Apple's 4 and 4S smartphones. A hard shell attaches to the iPhone and can be powered by electricity or run from the unit's internal rechargeable battery. The projector displays pictures with a maximum diagonal of 130 centimetres at a resolution of 640 by 360 pixels. The three LEDs provide a brightness of up to 15 ANSI lumens and the i.Gear Lumio has a speaker for videos.

With the i.Gear lumio you can project images, videos or slideshows directly from your iPhone® 4/4S against a wall (diagonal from approx. 30 - 130 cm). Thanks to the built-in battery, the mini-projector can be used as a power charger for your iPhone® 4/4S.

### Main Features
