

Jabra Freeway - Bluetooth In-Car Speakerphone

Product Name: Jabra Freeway - Bluetooth In-Car Speakerphone

Manufacturer: -

Model Number: TGS2210

An in-car, Bluetooth speakerphone featuring Virtual Surround Sound and voice-guided assistance. The first in-car speaker-phone to have a 3-speaker stereo system and Virtual Surround sound, which makes the audio crisper, clearer and more vibrant than ever before.

The Jabra FREEWAY in-car speakerphone makes hands-free calls sound better than ever – and makes controlling them effortless. It is the first in-car speaker-phone to have a 3-speaker stereo system and Virtual Surround sound, which makes the audio crisper, clearer and more vibrant than ever before. And with its dual-mic technology, you can say goodbye to unwanted background noise.

The Jabra FREEWAY is extraordinarily easy to operate. That's because with the Jabra FREEWAY, voices are in control. To start with, voice guidance will talk you through setup and pairing. After that, it will announce the name of the incoming callers, ask if you want to accept their calls and will tell you battery level and connection status. You then simply use your own voice to make, answer, end, redial or reject calls - while keeping both hands safely on the wheel. And there is no need to press buttons to turn the Jabra FREEWAY on or off. It automatically turns on when you get into your car and off when you get out.

Make and answer calls using just your voice

Tells you how to pair with your phone, who is calling and your battery status

Turns itself on and off automatically with help of in-built motion sensor

Always clear in-car calls and music

Plays music through your in-car audio system with help of the FM transmitter

Streams music, podcasts and GPS instructions directly to FREEWAY

Pair it with two mobile devices at the same time

Talk for up to 14 hours and get up to 40 days standby time.

You'll think they're in the car with you

Jabra FREEWAY is one of the first in-car speakerphones to have 3 speakers coupled with Virtual Surround Sound. You'll enjoy sound so clear, it will be like talking to a passenger in the car. All of the background noises, honking cars, roadwork, bumps on the road, disappear with FREEWAY's dual-mic technology, which filters out everything but your voice.

So intuitive

Open the car door, get inside and your Jabra FREEWAY turns on and is ready to use. A call comes in, and Jabra FREEWAY announces who's calling. You can then accept or reject the call using just your voice. You can also make calls, redial and end calls by giving simple, verbal instructions. Once you've reached your destination, Jabra FREEWAY turns off once you've left your car.

Free one-year subscription to Voice Assist

Your purchase of Jabra FREEWAY comes with a free, one-year subscription to Voice Assist, an app that can be used with any mobile phone or IP-connected device. You can use Voice Assist to send and respond to emails and text messages, and post updates to social networking sites like Facebook and Twitter, using nothing but your voice.

Specifications

Connectivity

Wireless Technology: Bluetooth

Supports Bluetooth™ for wireless connectivity

Bluetooth version: 3.0

Supports Bluetooth™ version 3.0
