

PQI Air Drive

Product Name: PQI Air Drive

Manufacturer: -

Model Number: TGS2216

The size of a credit card and only 8mm thin, the Air Drive is the slimmest, lightest, and smallest portable wireless storage device on the market. Fully charged, it is capable of 5 hours of continuous multimedia playback. Instant two-way file transfer and sharing with friends have never been easier.

The PQI Air Drive has its origins in the concept of sharing without the constraints of wires and cables. It employs the latest Wi-Fi technology to solve the problems often encountered with smartphones, tablets, iPhones, iPads and other handheld devices where built in memory and applications are inadequate or cannot be expanded. This allows you to share your media files at any time and wherever you are. Let's embrace the wireless world of mobile living.

Moreover, the PQI Air Drive provides a retractable USB cord which eliminates the need to carry extra cables. The cord is cleverly concealed in the drive and can easily be pulled out when needed. Forgetting to carry extra cables will never be a problem again. The S+ Flash app is available from both the Apple App Store and Google Android Market. You can download S+ Flash for free and start enjoying the convenience of the Air Drive right way! The intuitive user interface allows you to instantly share your most treasured photos, videos, and music simultaneously with up to 5 friends, all at the touch of a button.

The built-in high performance lithium-ion battery is safe and environmentally friendly, and offers up to 5 hours of continuous video playback for a single user. Users no longer have to worry about running out of power, and can simply enjoy convenient sharing anytime, anywhere. Instant two-way file transfer and sharing with friends have never been easier.
