## iGrill

Product Name: iGrill

Manufacturer: -

Model Number: TGS2295

The iGrill® is an app-enabled wireless Bluetooth® meat thermometer which allows you to monitor your food from up to 60 meters away. Your iGrill app will alert you when your food is ready via your Apple or Android device!

The first grilling and cooking thermometer and App for Apple and Android Devices!

The iGrill® is an app-enabled wireless Bluetooth® meat thermometer. Users are able to download the iGrill app at no charge from the App Store and Google Play store, and connect to their Apple or Android device via Bluetooth® technology. This Bluetooth®-enabled meat thermometer allows you to monitor your food from up to 200 feet away.

The iGrill has dual temperature probe capability so you are able to monitor two different meats at once and also works as a stand-alone thermometer.

The free iGrill app has Facebook integration so that you can upload pictures of what you're cooking right to the iGrill Facebook page. The app also has a globe feature that shows real-time pins of people using the iGrill all over the world.
