

Fenix PD32

Product Name: Fenix PD32

Manufacturer: -

Model Number: TGS2352

Fenix will only allow the best and most innovative products to make it to market. Products that do not meet their strict standards are never released. Fenix has always dedicated itself to enhancing their product's quality, workmanship and performance.

The Fenix brand are one of the most exciting ranges of LED Torches to hit the market in recent years. These high quality flashlights have everything you could ask for; powerful, small, light and water proof with incredibly long battery life. Made from aircraft grade aluminium with an extra tough anodised finish, Fenix Lights are at the cutting edge of LED torch technology.

Fenix PD32

Featuring a Cree XP-G LED with maximum output of 315 lumens, the PD32 has reverse polarity protection and is waterproof to IPX-8 standards. The new Fenix PD32 is compatible with two CR123 or one Li-Ion 18650 rechargeable cell, giving excellent runtimes for those who prefer the economy and performance of rechargeable 18650 batteries.

A newly designed side switch offers comfortable access to four brightness settings plus Strobe and hidden SOS modes. The built in memory function remembers your last brightness selection, so there's no unwanted cycling through levels to reach your preferred starting point.

315 lumens - 2 hour runtime

130 lumens - 8 hour runtime

70 lumens - 16 hour runtime

9 lumens - 200 hour runtime

Strobe and SOS mode

Specifications

Cree XP-G (R5) LED with a lifespan of 50,000 hours

Uses two 3V CR123A batteries (Lithium) or one 18650 rechargeable battery (Li-ion)

127mm (Length) x 25.4mm (Diameter)

61-gram weight (excluding batteries)

Digitally regulated output - maintains constant brightness

Reverse polarity protection, to protect from improper battery installation

Over heat protection to avoid high-temperature of the surface

Anti-roll, slip-resistant body design

Tactical tail switch with momentary-on function

Side switch in the head

Made of durable aircraft-grade aluminum

Premium Type III hard-anodized anti-abrasive finish

Toughened ultra-clear glass lens with anti-reflective coating

Notice: The above-mentioned parameters (tested by high-quality CR123A Lithium battery in Lab) are approximate and may vary between flashlights, batteries and environments. *The flashlight will transfer into the High brightness level after working about 30 minutes in the Turbo. Therefore, the runtime of Turbo output is an accumulated time.

Comes complete with a removable pocket clip and nylon belt holster.
