Great Minds Puzzle - Galileo's Globe

Product Name: Great Minds Puzzle - Galileo's Globe

Manufacturer: -

Model Number: TGS2410

The Great Mind's puzzle range is a collection of some of the best puzzles of all time. Each of the products have an antique style to give them an aged look. Each puzzle comes complete with a history of the "Great Mind" himself and how the puzzle corresponds to the man.

The Great Minds range brings together some favourite puzzles and links each with one of the greatest minds of all time. Each character has been thoughtfully placed with a relevant puzzle and the products are finished in an antique style to give them an aged look. Every box has information and a brief history of the 'Great Mind' himself and how the man and puzzle are linked together... Which one do you like?

Galileo's Globe

The aim of the puzzle is to separate the pieces and then rebuild the globe. Looks easy? Look again! It's like a three dimensional jigsaw puzzle, only more challenging...

About Galileo Galilei 1564 - 1642

Italian scientist and astronomer, and inventor of the telescope he also developed the compass and the thermometer. He claimed that the earth was not the centre of the universe but that the planets including Earth orbited around the sun. A controversial theory at the time! By watching a lamp swinging in a cathedral, he made discoveries about the perpetual motion of a pendulum. He worked that a cannon ball fired from a cannon follows a special kind of curve called a parabola. His famed experiment at the top of the leaning tower of Pisa demonstrated that objects of different weights will fall at the same speed.
