Why nuud?

for Ultimate Touch

Introducing nuud naked screen technology.

With nuud naked screen technology, there is absolutely nothing between you and your iPad's screen — literally.

iPad cases with built-in screen protectors significantly degrade the visual clarity of your iPad and have an air gap that interferes with the touch experience.

Enjoy your iPad as Apple intended: go nuud for perfect visual clarity and the most responsive and intimate touch experience possible.

Confidently Buff

Water, Dirt, Snow & Shock Proof

Designed with confidence in mind, the LifeProof nuud case for Apple iPad allows you to take your iPad everywhere. Surf the web from the pool, view blueprints on the construction site, or let the kids complete their reports while on a field trip.

Every Single Case Water Tested

To give you confidence to go everywhere with your LifeProof iPhone, iPod Gen4 and iPad, Lifeproof water tests each and every case they make. Not only that, after the test an independent agent performs additional testing and even puts randomly selected cases through a second water test. Lifeproof never ships a case unless it has been successfully tested.

Lifeproof employees use their cases every day, so they only make cases they trust themselves!
