Aerobie Sports Discs - Aerobie Orbitor

Product Name: Aerobie Sports Discs - Aerobie Orbitor

Manufacturer: -

Model Number: TGS2459

To make Aerobie discs fly straight, release them level. When people throw a conventional flying disc, they tend to release it sloping downward to compensate for the disc's tendency to roll over in flight. With Aerobie discs, this compensation is unnecessary. Instead, throw them level to make them fly straight. You can throw an Aerobie disc sloping to the left if you want it to curve left and sloping to the right if you want it to curve right.

Favorite Games

A high performance outdoor boomerang, the Aerobie Orbiter flies out about 90 feet and then it really does come back. The Orbiter boomerang combines a high tech, triangular design with a bright colored, soft rubber edge. These features make it easy to throw and see in flight and soft to catch. Throwing instructions printed on the boomerang will help you learn to play catch with yourself in no time.

Size: 11 ½ inches per side, equilateral triangle. Available in orange, yellow, and magenta. Ages 13 and up. Quality made in the U.S.A.

Price: R178.80
