smart phone. smarter athlete.

Wahoo Bike Pack for iPhone

Turn your iPhone into a full featured bike computer! The Wahoo Bike Pack wirelessly connects your iPhone to any ANT+ bike sensor so you can get all of your favorite cycling data on your iPhone, including speed/cadence, power (wattage), and heart rate. The Wahoo Bike Pack features the Wahoo Bike Case for iPhone and a wireless Speed and Cadence sensor. Your iPhone can be mounted on your bike's handlebars or stem in a protective and water-resistant case. Also included in the package is the Wahoo Fitness App for iPhone, which is perfect for turning your iPhone into a cycling computer.

The Wahoo Bike Case for iPhone works with all types of bikes - road, mountain, e-bikes, and hybrid. The Bike Case encompasses Wahoo Fitness sensor technology along with a water resistant protective barrier for your iPhone. You can now have your iPhone read data from any ANT+ sensor - bike speed and cadence, bike power, and heart rate - now your iPhone is a bike computer! WILL NOT FIT iPod TOUCH!

Wahoo Fitness wirelessly connects your iPhone to your favorite ANT+ fitness measuring devices. With Wahoo Fitness, your phone, your favorite playlists, the best fitness Apps and real-time activity information are all in the palm of your hand - or mounted on your bike, or in your pocket.
