Edifier Bluetooth Phone Speaker. Avail in Black, red or white

Product Name: Edifier Bluetooth Phone Speaker. Avail in Black, red or white

Manufacturer: -

Model Number: PGIFTS6HMP233-RED

Portable Bluetooth The Edifier MP233 combines the highest level of audio output and quality with the latest technology including Bluetooth connectivity and conference call features, all within a portable speaker device. The MP233 is equipped with a built-in microphone – allowing the user to use their Bluetooth, NFC paired mobile phone to answer phone calls, reject an incoming call and end a conversation at the push of a button. Hands-free phone conversation and multiple listener conference calls have never been easier. With the option of built-in Li-ion battery, the MP233 becomes a portable speaker system, ideal for outdoor use, holidays or the convenience to transport it to another room or office. The Bluetooth audio input provides flexibility for users to sync and play music from Bluetooth-enabled devices and move freely around the room without the constant constraint of cables. Additional devices can also be connected using the 3.5mm auxiliary input option. The system produces a total power output of 9 watts RMS. Top keypads change input selection, or move through next/previous tracks as well as adjust the volume.

Product Highlights Bluetooth 4.0 technology NFC (Near Field Communication) connection Passive bass radiator Bluetooth speaker phone AUX input Micro SD card playback Built-in Li-ion battery for 15 hours of use Compact and portable design
