Ergolife Chair

Product Name: Ergolife Chair

Manufacturer: -

Model Number: pgg100

Festooned with awards for design, comfort and portability, the Ergolife instant chair is the ultimate in portable seating. It's so beautifully made (well that's the Swedes for you) and remarkably comfortable, that it's no surprise it's recommended by Swedish physiotherapists. Handmade in varnished birch and canvas, the chair lives in a small carry sack, and when you need a rest all you do is roll it out and plop down in it. Whether you're on the beach, in the park, chilling in the garden, camping, hiking, fishing, watching a concert, whatever, you no longer have to endure hard and uncomfortable ground. It's as happy on sand as it is on hard rock, just sit back and relax in comfort wherever you are. Lob it in the back of the car and you'll have a luxurious seat whenever you're out and about though you may find people want to steal it, as it's the hottest selling portable seating around. Features: * To get the most comfortable and most solid support, wiggle your bottom as far back into the chair as you can - you'll know it's right when you feel incredibly comfy! * Handmade in varnished birch and canvas textile * Designed for strength and durability * Lightweight and portable * Winner of copious awards * Recommended by Swedish physiotherapists * Specifically positioned slats to support the back regardless of body size * Comes with a carry sack * Carries weights up to about 140kg * Size rolled up: 40x10 cm * Colours may vary - green, dark blue or black.
