Product Name: MVIX 6000R Mulimedia Player - 250gig HDD

Manufacturer: -

Model Number: PGIFTSO234

By using a 3.5 " hard-disk drive (HDD), the Mvix player works just like an external USB 2.0 hard-drive when connected to your personal computer. In addition to media files, all your personal files on your PC can be backed up for safe-keeping. MVIX 6000R In today's world of popular gadgetry and fancy gizmos, the technological "must haves" bring a wide variety of digital content into our lives. DVD players allow you to watch the latest movies, MP3 players enable you to listen to your favourite tunes and digital cameras record your family's special moments - digital devices, cables and connectors are abound in the home. Mvix offers affordable simplicity to consumers encumbered by hardware, software and everything in between with the four-in-one MV- 4000U / MV-5000U multimedia players. A scaleable and portable entertainment system that stores, shares and plays multimedia files such as music or movies. The Mvix players can be connected to a TV, home theater system, projector, Hi-Fi system, or car audio system so that you can enjoy your entertainment where and how you want. By using a 3.5 " hard-disk drive (HDD), the Mvix player works just like an external USB 2.0 hard-drive when connected to your personal computer. In addition to media files, all your personal files on your PC can be backed up for safe-keeping. For the discriminate movie watcher, simply connect the Mvix player to your PC and download movies in a variety of video formats such as MPEG1, MPEG2, MPEG4, AVI, DivX3.11, 4x, 5x, XviD, DVD (IFO, VOB), VCD. The loaded media center can then be connected to a TV or home theater system so your downloaded movies can be viewed from the comfort of your living room couch. Forget huddling over a computer screen to view your digital photos, the Mvix multimedia player allows you to share your favourite memories with family and friends in a high-quality digital slide show. The player allows you to import your digital Jpeg photos so they can be viewed on a TV, projector or home theater system.
