Sennheiser RS 4200 TV

Product Name: Sennheiser RS 4200 TV

Manufacturer: -

Model Number: PGIFTSO247

The transmitter easily connects to TV sets or hi-fi systems and transmits sound within a range of up to 100 meters. Users can listen to the news through walls and ceilings, for example while in the kitchen or out in the garden. Operation of the system is easy and straightforward, e.g. the headphones automatically switch on when they are put on.

General Description
The RS 4200 is an ultra-lightweight RF wireless stereo stethoset headphone system for enjoying TV sound without disturbing others. The transmitter easily connects to TV sets or hi-fi systems and transmits sound within a range of up to 100 meters. Users can listen to the news through walls and ceilings, for example while in the kitchen or out in the garden. Operation of the system is easy and straightforward, e.g. the headphones automatically switch on when they are put on. The transmitter features a compression button for further enhancing speech intelligibility. The RS 4200-2 system has the same features as the RS 4200 but includes two stethoset headphones and two Sennheiser accupacks.

Features
Ideal for TV sound transmission
Freedom of movement within a range of up to 100 meters
